JavaScript

Node.js

Express.js

MySQL

React.js

## ○ SKILLS ○

Interpersonal Communication Skills

Love of Learning

Analytical Thinking

Complex Problem Solving

Time Management

## PROFILE

Energetic software engineer with full-stack expertise, adept at solo projects and dynamic team collaboration. Passion for clean code and design, excelling in crafting scalable, visually stunning applications. Ready to elevate your team's success!

## PROJECT EXPERIENCE

### PetGuide at Austin Coding Academy

August 2023 - October 2023

- Conceptualized, designed, and developed a full-stack web application from ideation to deployment, showcasing proficiency in HTML, CSS, JavaScript, Node.js, Express.js, and MySQL.
- Incorporated secure user authentication and authorization functionalities, ensuring data integrity and user privacy.
- Designed and implemented a robust relational database schema using MySQL, optimizing data storage and retrieval for efficient application performance.
- Developed RESTful APIs to facilitate seamless data fetching between the frontend and backend, adhering to industry best practices for API design.
- Implemented CI/CD pipelines for automated testing and deployment, streamlining the development process and ensuring code reliability.
- Deployed the application on AWS, demonstrating proficiency in cloud services for scalable and reliable hosting.

## EMPLOYMENT HISTORY

### Web Design Specialist at 902 Youth

December 2023- Present

- Utilized HTML, CSS, JavaScript, Node.js, Express.js, MySQL, and AWS to design, develop, and maintain responsive and user-friendly websites.
- Worked closely with IT and Marketing supervisors to understand project requirements and objectives.
- Updated and managed website content to reflect latest information, products, services, and ensured consistency in branding and message across all platforms.

## EDUCATION

### Certificate of Completion, Austin Coding Academy

December 2022-December 2023

- Completed an intensive and immersive full-stack web development bootcamp, covering a comprehensive curriculum including HTML, CSS, JavaScript, Node.js, Express.js, React.js, and databases.
- Successfully executed multiple hands-on projects, demonstrating proficiency in designing and implementing full-stack solutions.
- Applied theoretical knowledge through real-world projects, gaining practical experience in solving complex problems and developing scalable web applications.
- Utilized Git for version control, ensuring efficient collaboration and streamlined code management within a team setting.
- Implemented responsive design principles to create web applications accessible across various devices, demonstrating a focus on user experience and accessibility.
- Engaged in ongoing learnings beyond the bootcamp, staying current with industry trends and exploring new technologies.
- Demonstrated commitment to professional growth through self-directed projects and exploration of emerging web development tools and frameworks.
