Education:

Austin Coding Academy- in person in Austin, TX

December 2022-December 2023

- Completed an intensive and immersive Full-Stack JavaScript Development academy, covering a comprehensive curriculum with frontend and backend technologies through real-world projects.
- Applied theoretical knowledge through real-world projects, gaining practical experience in solving complex problems and developing scalable web applications.
- Implemented responsive design principles to create accessible web applications across various devices, resulting in a focus on accessible user interfaces and a positive user experience.

Experience:

902 Youth- Non-Profit based in Massachusetts

December 2023-February 2024

- Utilized HTML, CSS, JavaScript, React.js, Node.js, Express.js, MySQL, and AWS to design, develop, and maintain responsive and user-friendly websites.
- Worked closely with IT and Marketing teams to conceptualize projects, resulting in cohesive design and a clear understanding of project requirements.
- Updated and managed website content to reflect the latest information, programs, and services, resulting in consistent branding and message across all platforms.

Ripple Learning LLC- contract job based in Austin, TX

February 2024-Present

- Conceptualized, designed, and developed Full-Stack JavaScript Applications from ideation to deployment, showcasing proficiency in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB.
- Incorporated secure user authentication and authorization functionalities, resulting in data integrity and user privacy.
- Designed and implemented a robust NoSQL database schema using MongoDB, optimizing data storage and retrieval for efficient application performance.
- Developed RESTful APIs to facilitate seamless data fetching between the frontend and backend, adhering to industry best practices for API design.
- Implemented CI/CD pipelines for automated testing and deployment, resulting in a streamlined development process and ensuring code reliability.

Skills: HTML, CSS, JavaScript, TypeScript, React.js, React Native, Tailwind, SCSS, Express.js, Node.js, MySQL, MongoDB, AWS, Git Version Control, Bootstrap, MUI, UX/UI, NPM, API, JSON, Debugging
